Expertise, Regional Focus and Exclusivity

Dear expert visitors of Stanztec in Pforzheim,

Welcome to the 7th Stanztec trade fair for stamping technology in Pforzheim from the 25th through the 27th of June, 2024. This exclusive event addresses all aspects of stamping and forming technology, as well as applicable technologies and processes, and is regarded as a “true gem amongst technical trade fairs”. The highly specialised **precision products** supplied by **stamping technology** experts are used in a wide variety of applications – they’re indispensable components in many industrial and consumer goods. The stamping technology industry must respond to increasing product customisation, smaller batch sizes, increasingly complex part geometries and, at the same time, ever stricter demands in terms of quality and precision. The machines need to be flexible, multifunctional and easy to operate. Machine manufacturers must also respond to new requirements for peripheral equipment for feeding and parts disposal. The topics of energy efficiency, reduced material consumption, minimisation of waste and maximum productivity are key factors in the field of stamping technology.

Automation and digitalisation characterise the processes, as do intelligent machines and tools, maximum output with reduced energy requirements, increasing functions integration and utmost precision. The exhibition at the Congress Centre in “gold city” Pforzheim (CCP) is traditionally a spectacular and **exclusive meeting place** for experts which presents leading technologies for toolmaking, stamping technology and peripherals for three days. Stanztec’s unique trade fair concept appeals to a global expert audience. The high concentration of specialists in “Stamping Technology Valley” is unique throughout the world. And thus once every two years, the CCP is the meeting place for an exclusive community which discusses current trends and challenges at the highest level. You can look forward to the concentrated technological expertise and remarkable innovative strength demonstrated by the stamping specialists. We wish you a successful trade fair visit and an inspiring exchange of technical knowledge!

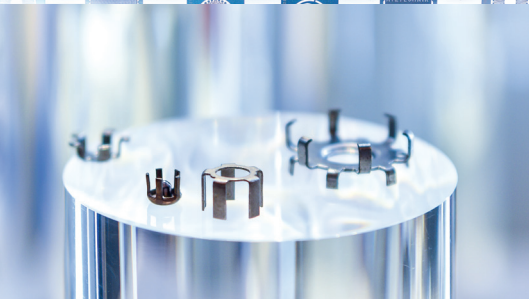

Trade Fair Opening Hours

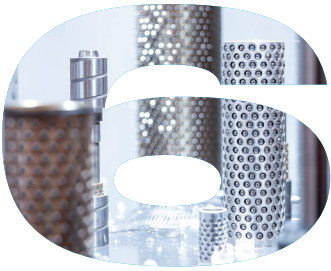

Tuesday, 25th to Thursday, 27th June 2024
Tuesday – Thursday: 09:00 am – 05:00 pm

Nomenclature (short survey)

- Structural elements
- Tooling systems
- Production equipment
- Material flow – peripherals
- Stampings and assemblies

Reasons for experiencing #Stanztec2024 live!

- 1** Stanztec is the exclusive networking event for high-end die-cutting technology, where the market leaders present the best, most economical and highest-quality solutions every two years.
- 2** Global automation and digitalisation require ever more precise and reliable punching technology, the innovations of which can be found in concentrated form at this unique trade fair.
- 3** The exclusivity of the event in a top business network ensures a high density of decision-makers among the trade visitors, who generate leads here in an efficient and targeted manner.
- 4** In a very personal dialogue, the interested specialist audience will be able to get fit for success in global competition in a conceptual and powerful way.
- 5** The Stanztec trade fair is an industry jewel whose appeal has an image-enhancing effect on participants.
- 6** The so-called "Stamping Technology Valley" around Pforzheim is home to a regional concentration of sheet metal processing world market leaders.

Das Erfolgskonzept der Schall Messen

Schall macht **Messen für Märkte**. Bedeutende, international etablierte Messen und das bereits über viele Dekaden hinweg. So ist die P. E. Schall GmbH & Co. KG seit Jahrzehnten Deutschlands erfolgreichstes privates Messeunternehmen im Bereich technische Fachmessen sowie technisch orientierte Publikumsmessen.

Erfahren, effizient und zuverlässig bringt das Messeunternehmen Schall die Anwender und Anbieter internationaler Fertigungsbranchen zusammen, um hochwertige Technologien multisensorisch zu erfahren, Geschäft zu generieren, neue Geschäftsfelder zu etablieren und im globalen Wettbewerb zu punkten.

“ *Sich auf Augenhöhe begegnen, mit Experten neue Technologien besprechen, wertvolle nachhaltige Kontakte pflegen, **themenspezifische Vielfalt überschaubar** erleben, Ideen und Inspiration für neue Projekte abholen, dabei Ressourcen schonen, Effizienz steigern und Wertschöpfung voranbringen – all das leisten die Messen von Schall. Wir freuen uns sehr, jetzt mit unseren etablierten und bedeutenden Messen wieder durchzustarten. Denn #bestbusinesswithpleasure ist genau das, wofür wir brennen.* Bettina Schall, Geschäftsführerin

Mit den international anerkannten Fachmessen für Qualitätssicherung (Control), optische Technologien, Komponenten und Systeme (Optatec), Stanztechnik (Stanztec), Produktions- und Montageautomatisierung (Motek), Klebtechnologie (Bondexpo), Kunststoffverarbeitung (Fakuma) sowie Blechbearbeitung (Blechexpo) und Fügetechnologie

(Schweisstec) hat Schall erfolgreiche Business-Plattformen entwickelt. Daraus entstanden in verschiedenen Branchen ganz neue Märkte, deren Protagonisten sich durch eine hohe Innovationskraft, umfassende Systemkompetenz und praxisgerechte Anwendungslösungen auszeichnen.
